# arQus School of Gamma-ray Astronomy and Statistics

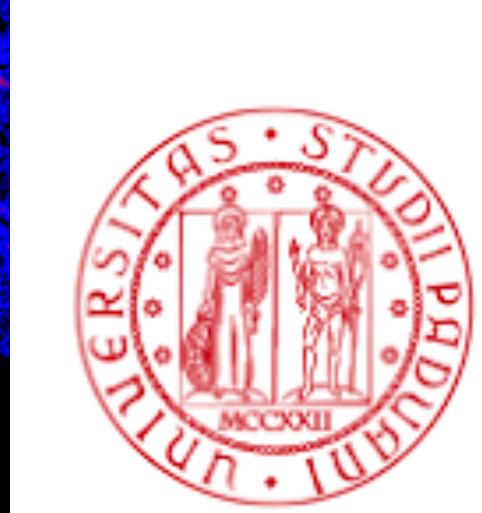

5 - 9 Sept. 2022

## Theory and hands-on sessions on

- Introduction to the theory and instrumentation of high-energy astrophysics
- Introduction to statistical inference and the statistical methods applied in astrophysics
- Introduction to multi-messenger analysis

Participation at the school is **free**.

The application will be open to bachelor's students in the physics program until the position is filled (max. **6 students**)

For more details see: <https://indico.dfa.unipd.it/event/514/>
